   A. Text Amendment – Pasquotank County Flood Damage Prevention Ordinance
   This item is a staff generated request amending Article 4, Section A to stipulate that the County Planning Director or his/her designee will serve as the Floodplain Administrator. The Planning Director is currently the only staff member that maintains Floodplain Administrator certification through the Association of State Floodplain Managers. The Planning Board reviewed this request on June 16, 2016 and recommended approval.

   B. Subdivision Variance 16-01 – Request by Linwood L. Williams for a Variance from the Pasquotank County Subdivision Ordinance, Article IV, Section 19 Fire Hydrants
   Mr. Williams was previously granted a rezoning and Sketch Plan approval for a 50 lot subdivision off of Mill Pond Road in Newland Township. During the development of the Oak Ridge, Phase II Preliminary Plan it was discovered that the South Mills Water Association does not have the capacity to provide the water pressure required for the installation of fire hydrants. The Planning Board reviewed this request on June 16, 2016 and recommended approval with the condition that should South Mills Water Association obtain the capacity to provide adequate fire flow in the future, new fire hydrants will be installed for firefighting purposes in any undeveloped phases of the subdivision.
